

IRONS

- Modern Muscle geometry balances the CG in the center of the face for maximum ball speed, the highest stability and the purest feel.
- Ultra-fast Spring Steel faces amplify ball speed.
- RZN cavity long irons (2, 3, 4, 5, 6, 7) and muscle cavity short irons (8, 9, P, A) for the superior combination of stability and shot-shaping workability.
- Weight distributed for high-flying long irons and piercing short irons.
- Progressive sole widths with a beveled leading edge for forgiveness and enhanced versatility.
- Machine milled X3X grooves for enhanced spin control and shot-to-shot consistency.
- Forged 1025 carbon steel body in concert with RZN cavity for refined and consistent feedback.
- Midsize profiles progress from long length, lower profile long irons, through to classic short irons.
- True Temper DG Pro: Dynamic Gold consistency and precision with progressive ball flight and spin through the set.
- Golf Pride Tour Velvet grip for maximum playability, comfort and confidence.
